OUTDOOR TECH®

2014

WELCOME TO ANOTHER ITERATION OF YOUR LIFE. CALL IT AN IMPROVEMENT ON AN ALREADY GOOD THING. AND IF RYAN LIKES YOU, THEN THE REST OF US LIKE YOU AS WELL.

WALK WITH US DOWN THIS NEW ROAD. SHED THE THINGS THAT BIND YOU, AND MELD WITH THE NEW SHINY.

IF THESE WORDS MAKE YOU NERVOUS, THEY SHOULD. WE SEE YOU GLANCE AWAY FROM THE PAGE AS YOU THINK TO YOURSELF:

"I HAVE A JUICE BOX, SOME MICHAEL BUBLE ON VINYL, AND AN ODT CATALOG.... CAN MY LIFE GET ANY BETTER?"

HELL YES IT CAN.

BETTER THAN COFFEE AND CIGARETTES.

BETTER THAN COLD PIZZA AND WARM BEER.

BETTER THAN NAKED TIME AND, WELL, MORE NAKED TIME.

FROM THE BEGINNING WE SET OUT TO TAKE WHAT IS USEFUL AND MAINSTREAM, AND REMOLD IT. CRAFTING ITEMS WITH AS MUCH UTILITY AS SHOES WITH BUILT-IN NAILCLIPPERS, AND MORE BEAUTIFUL THAN YOUR SISTER. I KNOW YOU CAN'T SEE IT BUT WE THINK SHE IS KIND OF HOT.

CONSIDER US THAT EXTRA SPICE IN THE UNIVERSE YOU CRAVE. LIKE SRIRACHA, BUT WITHOUT THE BURNING "EXIT HOLE".

CELEBRATE THE NEW SHINY, AND DROP US A LINE IF YOU ARE EVER IN THE AREA.

STAY CONNECTED BUT NOT TETHERED.

BIG SOUND, SMALL PACKAGE. WAIT...

THE BUCKSHOT, SUPER-PORTABLE RUGGED AND WATER-RESISTANT SPEAKER.

This is the Buckshot, the ultra-portable, multi-functional, rugged and water-resistant wireless speaker by Outdoor Tech®. It's the sneakiest little speaker on the block, so all you super-sneaky types look no further. The rugged, rubberized exterior means that it's no big deal if you drop it from time to time, and the built-in speaker-phone and microphone means that you can have hands-free calls with your therapist basically wherever you want.

//BUCKSHOT

It's like carrying an Iron Maiden around in your pocket. Groupies not included.

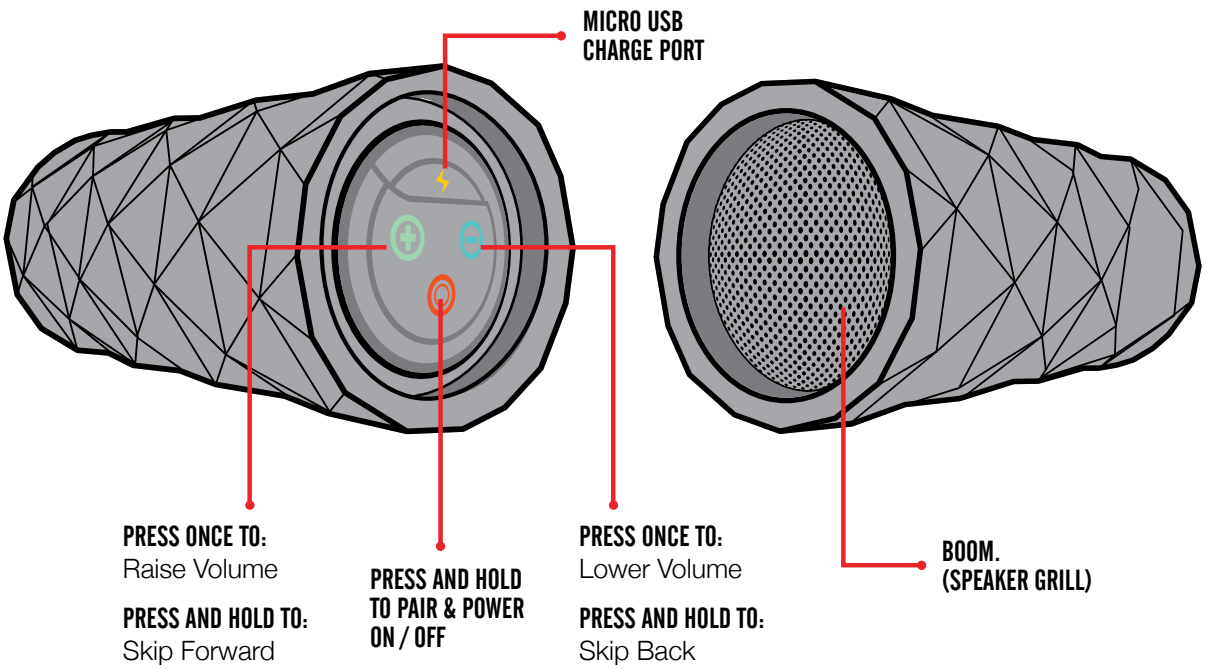
//FUNCTION



HANDLEBAR MOUNT INCLUDED

//FEATURES

- Big sound, tiny package. Stop laughing.
- Wirelessly connect to any Bluetooth-enabled device
- Included bicycle handlebar mount accessory
- IPX5 dust and water resistant standard
- Rugged, minimal design
- Built-in microphone
- Rechargeable lithium-ion battery
- Play time: 16 hours
- Range: 32 feet from device
- Weight: 5.2 oz

Included:
USB charging cable, handlebar mount, and user manual

20% LOUDER, CLEANER SOUND & BLUETOOTH 4.0. DON'T THANK US, THANK SCIENCE.

We wouldn't say something as cliche as "The best just got better"... it did though. Designed from the ground up at our Los Angeles headquarters, it features an angular, triangle-themed construction that fits in as well on your coffee table as it does out in the elements. Its water-resistant, dust-proof and shock-proof shell is probably tougher than you are, and its built-in microphone functionality means you'll be double-fisting Dr. Peppers and having hands-free conference calls before you know it.

//TURTLE SHELL 2.0

//FEATURES

- Two speakers and passive bass radiator provide 96 decibels of clear sound, wirelessly (20% louder than the original Turtle Shell®)
- Connect to any Bluetooth-enabled device with easy one-touch pairing
- Rechargeable lithium-ion battery with 16 hours of play time
- IPX-65 dust-proof and water resistant. We tested it. It passed.
- Built-in microphone, ‘cause you’ve got a lot to say
- External controls allow you to adjust volume, change tracks, play/pause and answer calls
- Standard camera threading for multiple mounting options
- 3.5mm audio-in port in case you are still rocking a Walkman
- Bluetooth 4.0 with aptX Codec for enhanced audio quality
- Voice prompts
- Battery Level “Fuel Gauge” displayed on source device
- Wireless Range: 32 feet
- Micro USB charge port

Included:
USB charging cable, 3.5mm to 3.5mm cable, stickers, signature ODT carry pouch and user manual

TAKE YOUR TURTLE SHELL® EVERYWHERE.

THE TURTLE CLAW LETS YOU MOUNT YOUR TURTLE SHELL® TO ANYTHING 1.5" THICK OR LESS. ANYTHING...

With the combined ruggedness of the Turtle Shell® and the functionality of the Turtle Claw, you can finally ride your bike in the rain while singing your heart out to Jeremy Beeber, or whatever kids are listening to today. Be it a bike, baby stroller, or your little brothers earlobe, the Turtle Claw lets your Turtle Shell® truly go anywhere.

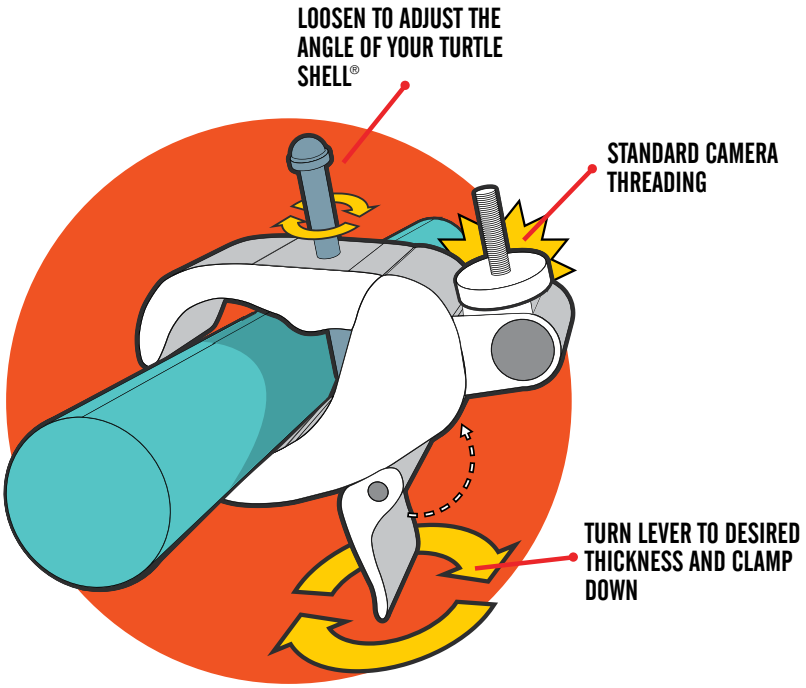
//TURTLE CLAW

"Sweet bike, bro" -add the Turtle Shell 2.0 to your bicycle with the Turtle Claw, and you'll be hearing that a lot.

OT3800

TURTLE CLAW - Handlebar Mount for Turtle Shell

//FUNCTION



LOOSEN TO ADJUST THE ANGLE OF YOUR TURTLE SHELL®
STANDARD CAMERA THREADING
TURN LEVER TO DESIRED THICKNESS AND CLAMP DOWN

TWIST, CLAMP, GO

Turn the lever clockwise until the clamp is just big enough to fit around the object. Press the lever down to firmly attach the Turtle Claw to the object.

//FEATURES

- Standard camera threading holds your Turtle Shell® firmly to the claw
- Attach your Turtle Shell® to literally anything with a 1.5 inch diameter or less

Included:
The hopes and dreams of every child on earth

THIS ONE MIGHT PISS OFF THE NEIGHBORS.

THE BIG TURTLE SHELL®, THE T-REX OF WIRELESS SPEAKERS... MINUS THOSE ADORABLE LITTLE ARMS.

This is the Big Turtle Shell® by Outdoor Tech®, the world's loudest ruggedized and water-resistant Bluetooth wireless speaker. It's really loud. Like, rattle-your-teeth, shatter-the-fish tank, honestly-bro-I-can't-hear-you-loud. Noise violations, anyone? Of course, you can play it softly if you want, but that's sort of like riding on the lower level of a double-decker bus. Just like its little bro the Turtle Shell®, the Big Turtle Shell® features a water resistant, ruggedized body and a passive bass radiator, ensuring your dubstep has the required... dub.

//BIG TURTLE SHELL®

The Big Turtle Shell® is a water-resistant opera house, minus the, you know, opera.

THE DJ SLIMS, RUGGED WIRELESS HEADPHONES. YOU PROBABLY CAN'T BREAK THEM, NOT THAT YOU'RE A NANCY OR ANYTHING...

The DJ Slims are rugged, wireless headphones with a built-in microphone for hands-free call functionality. Tread the road that beckons, and take your music along. These headphones are all about low-profile, lightweight execution. The super slim shape lends itself well to staying in place during your daily jaunt down to last call at Happy Hour, and the lightweight headband is coated with the same rugged, rubberized finish as many other ODT products. Mountain-tested, office-appropriate.

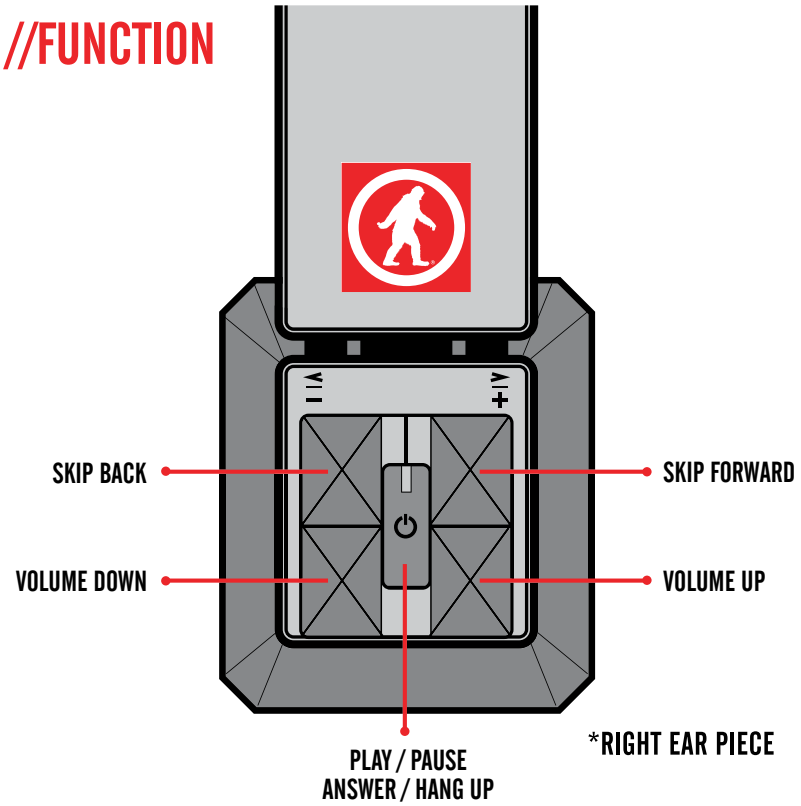
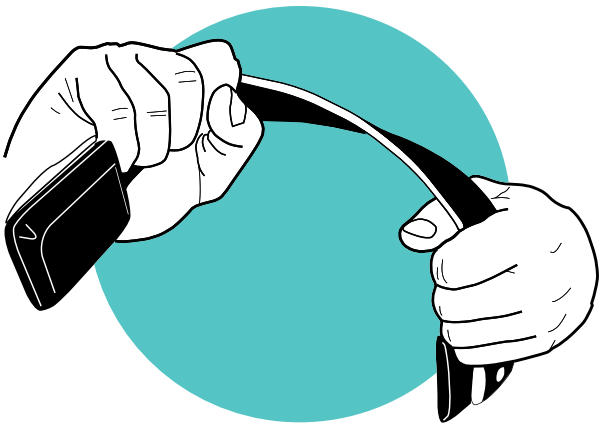
//FUNCTION





SUPER DURABLE

*But seriously - don't try to break them. Grow up.

//FEATURES

- 30mm drivers deliver the full range of clear sound, wirelessly
- Built-in microphone
- Connect to any Bluetooth-enabled device with easy one-touch pairing
- External controls allow you to adjust volume, change tracks, play/pause and answer calls
- Rechargeable lithium-ion battery
- Play time: 9 hours
- Standard micro USB charge port
- Battery level "fuel gauge" displayed on source device
- Bluetooth 3.0

Included:

USB charging cable, signature ODT carry pouch, and user manual

THE "PRIVATES" WIRELESS HI-FI HEADPHONES WITH A TOUCH PAD INTERFACE.

The Privates feature a touch pad interface on the right ear-piece that allows you to change tracks and control volume with the swipe of a finger, built-in call functionality, a 3.5mm AUX jack for plug-in capability and a tough canvas wrap around the headband. The Privates are better-looking than a glass of scotch after that middle-seat flight between Sweaty Mister Johnson and Screaming Baby Timmy and more convenient than a twelve gauge when the zombies end up at your front door.

//PRIVATES

Privates come in every color, shape, and size. Ours just come in different colors.

FOLD FOR PORTABILITY

*No yoga required.

//FEATURES

- 40mm drivers for clear mids and solid bass
- Built-in microphone for making and receiving calls
- Real, real comfortable, swiveling ear pads
- Only ONE button (yes, really). The rest is touch control, pretty cool.
- Bluetooth 3.0
- Works with any Bluetooth-enabled device
- Battery level “fuel gauge” displayed on source device
- 3.5mm AUX jack
- Foldable and flexible
- Play time: 10 hours

Included:
USB charging cable, 3.5mm to 3.5mm cable, signature ODT carry pouch, and user manual

PERHAPS THEY'RE A BIT PRETENTIOUS, BUT YOU'D BE TOO IF YOU SOUNDED THIS GOOD.

"Better than me?", you ask. Probably. They're named after the flashiest bird in New Zealand, one with iridescent plumage, two voice boxes and a bit of an attitude. They are packed with the finest features including, HI-FI sound, real comfortable ear pads and headband, integrated 3.5mm auxiliary jack, on-screen fuel gauge, and integrated hinges for folding and transport. The Tuis fit in well aside a glass of single-malt and box of Arturo Fuentes, although they can also work with a milkshake and one of those old-school Game Boys. Sometimes that's just as classy.

//TUIS

According to the Tuis, you may not have the mental capacity to handle these.

NO MORE POCKET TANGLE.

THE TAGS, WEARABLE WIRELESS EAR-BUDS. NEVER GET TANGLED IN YOUR GANGSTER CHAIN AGAIN, "HOMIE".

The Tags are wireless, Bluetooth ear-buds, ready for the slopes. Or college. Or your old bunk-bed when you're home for Thanksgiving. Hey man, we support you. Fashioned to hang like dog tags when not in use, they feature the same soft touch finish as many of the other products in the ODT line. Listen to music, skip tracks, control volume, and talk on the phone all without touching your Bluetooth device.

//TAGS

When you're not jamming out to "phat" beats, rock them around your neck like dog tags.

MAKE IT BLUETOOTH.

THE ADAPT, BLUETOOTH ADAPTER. WIRES NOW MAKE AS MUCH SENSE AS SCREEN DOORS ON SUBMARINES.

The Adapt will make anything with a 3.5mm audio jack wireless. Now you may talk on the phone with your old headphones or turn your car stereo into a speaker-phone with its built-in mic. Make sure to clip it to your favorite sweater vest for a totally hands-free experience. You may also skip tracks and control volume without having to touch your Bluetooth device. Your life is getting easier just reading this.

//ADAPT:

Use this little guy with ear-buds, headphones, or jack it into your dad's home stereo.
